you

Ooh

Amen.

I, I just woke up from a dream Where you and I had to say goodbye And I don't know what it all means But since I survived I realized Wherever you go that's where I'll follow Nobody's promised tomorrow So I'ma love you every night like it's the last night Like it's the last night If the world was ending, I'd wanna be next to you. With a smile If the world was ending I'd wanna be next to you Lost Lost in the words that we scream I don't even wanna do this anymore Cause you already know what you mean to me And all of the only one we're fighting for Wherever you go that's where I'll follow nobody's promise tomorrow So I'ma love you every night like it's the last night Like it's the last night If the world was ending I'm gonna be next to you If the party was over and our time on earth was through I'd better hold you just for love And die with my smile If the world was ending I'd wanna be next to you If the party was over and our time on earth was soon I'd wanna hold you just for a while and die with a smile. If the world was ending, I'd wanna be next to you. If the world was ending, I'd wanna be next to you I wanna be next to you
